Dear Mr. Kluksdahl:

Re: Mitigative Procedures Regarding Water Containment, Goldstrike Mine,
M/053/005, Washington County, Utah

On June 14, 1991, the Division received the information we requested from you regarding the repair of the sediment pond; and the mitigative measures taken last March and April to address the rainfall problems. Thank you for your prompt response.

We are currently evaluating your sediment pond upgrade proposal and will get back to you as soon as possible with comments.

We would also like a copy of the sampling report, which will address the March discharges, as soon as it become available.

Thank you for your attention to these requests.

Sincerely,

Holland Shepherd
Senior Reclamation Specialist
